

SVHC-REACH COMPLIANCE DECLARATION

DATE: 02/03/2018
PRODUCTS: P5ER, P5HS, P5HS Premium, P5LSF, P5LS, P3LS, P5AF, P10, Bakery, PDP-R, P01N, P02N, P03N.

EC Directive 1907/2006 provisions concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (Title II, Chapter 1, Article 7, Paragraphs 1 & 2) require the registration and notification of substances in articles by any producer or importer of articles if the necessary conditions are met.

The Extrusa products mentioned below are compliant with EC Regulation 1907/2006 (REACH), by which relevant components are:

excluded from the Regulation, and/or exempted from registration, and/or have been pre-registered and/or have been registered.

Based on information received from our suppliers, we hereby confirm that all substances contained in our products have been pre-registered as Regulation 1907/2006 requires.

Based on current and available information, the products do not contain any Substances of Very High Concern (SVHC) as listed on the candidate list published by ECHA.

Number of Substances on the Candidate List: 181 (last updated:15/01/2018)
<http://echa.europa.eu/candidate-list-table>.

Concerning the Substances of Very High Concern we can confirm that our product lines do not contain any of these materials above 0.1% as defined by the legislation.

We also confirm that our Film lines comply with requirements of Directive 67/548/CE on "Classification, packaging and labeling of dangerous substances" and with the restrictions set by the REACH Regulation 1907/2006/CE, annex XVII and following amendments.

We do not test or analyze for ingredients not intentionally added, but the above statement are based on our knowledge of the raw materials and the fact those substances are not intentionally added.
